CLARESHOLM LOCAL NEWS

The Victory Loan meeting at the Rex on Wednesday night was not as well attended as the committee had hoped. The snowstorm, however, was an excellent excuse for staying at home. Those who faced the elements were well repaid in the splendid program that was given. The films shown by Mr. Edlund were greatly appreciated and there is little doubt but that educational films of that class would always be well patronized. The war trophies shown by Major Hugg were of great interest as were the explanations given regarding them. Mr. Roberts of Calgary explained the purposes and reasons of the 1919 Victory Loan. He did not feel that they were in duty bound to support it to their utmost ability. The Victory Loan committee wish to thank Mr. John Edlund for the use of the theater and only regret that there was not more to take advantage of his liberality.

Mr. W. Moffatt left on Wednesday for Calgary to attend a meeting of the government to arrange a course of music for the public schools. It is the intention of the government to put music on the same basis as other subjects and to give marks which will count in the student's general standing. Educationists are realizing the value of a musical training in the development of character, and to counteract the influence of pleasures that appeal rather to a lower nature. We believe this is a step in the right direction which will bear fruit in future generations. Mr. Moffatt is doing a splendid work in the public schools and now he can boast of so much musical talent as Clareholm. It is hoped that the students in the public and high school will take advantage of the splendid opportunity that is given them to add fifty per cent to the pleasure of living by securing a thorough knowledge of the art of music.

A very sad accident took place twelve miles east of Clareholm on Thursday afternoon, which resulted in the death of Mr. Bert Curtis, a well known farmer of this district. Mr. Curtis was making some repairs to his windmill and while on his way down by some means dislodged a crowbar which he had been using and which he had left on the platform at the top of the mill. He was struck in the fall and last his own hold and fell to the ground. His wife assisted him to the house, then ran a mile to the nearest neighbor to secure help and phone for a doctor. Everything was done to save his life but he passed away early Friday morning. He leaves a wife and several small children.

The W. C. T. U. held its annual "At Home" in the Harrison Hall on Monday last. There was a good attendance and the evening was very enjoyable and profitably spent. Rev. Palland, Mrs. Atkinson, Mrs. McKimney, Mrs. S. C. Williams, Miss Moffatt and Mr. W. G. Moffatt contributed to the program with music and readings. Very interesting was the selection given by Mr. Moffatt illustrating in music St. Bartholomew's Eve. The audience sat enthralled during the performance and cheered until he responded with another selection. Refreshments were served by the ladies at the close and an invitation given for others to join the organization.

"A Petal on the Current"

Like Mary Pickford, who surprised her millions of adoring fans by departing radically from her "beautiful" characterizations to play Stella Maris, Annally and Johanna, Mary MacLaren has deserted the gorgeously costumed picture with its attendant scenic investment to create the role of Stella Schump in "A Petal on the Current," that human little tale of a department store clerk tossed about by circumstances on the melodramatic mixture. While the famous actress, MacLaren complexion and the flaxen ripple in the MacLaren hair cannot easily be disguised, the Universal star has made no attempt to "gild the lily" in her new vehicle, which will be shown at the Rex theater Monday and Tuesday.

TO PREVENT UNEMPLOYMENT

Next year will be well advanced before Canada's main expenditures for war can be completed. Every dollar that can be raised for the Victory loan 1919 will be required.

Although the war ceased in 1918 the war expenses went on. This is just as much a war year as last year was, as far as the money is concerned. Pressing liabilities incurred by the war and involving vast sums of money have to be cared for. The simplest and most profitable manner in which this can be done is for the people to provide the money themselves.

The Victory loan 1919 is entitled to just as much consideration as was given to its predecessors. It is up to every loyal Canadian to do his utmost to make the new loan an overwhelming success. The continuation of the prosperity of the nation is wholly dependent upon it.

It was naturally to be expected that trade depression in the Dominion would have followed the armistice but this was averted by the application of a large proportion of the last Victory loan as credits to Great Britain and our Allies for grain, dairy produce, fish, lumber and ships. These credits were absolutely necessary and strictly good business. They must be continued. They are national re-investments. The debts will be paid eventually and in the meantime industrial and agricultural workers will be kept in busy and lucrative employment.

Schuster-Davis Musical Comedy Company Coming to Rex

Following is a clipping from the Calgary Herald announcing this stage show which played the Grand Theater, Calgary, last week:

On Thursday, Friday and Saturday next the attraction at the Grand will be the Schuster-Davis Musical Comedy Company, presenting two musical plays, "Make Yourself at Home," Thursday evening, and "My Pretty Baby," Friday evening and Saturday matinee evening.

The story of "Make Yourself at Home" concerns a young American who is deeply in debt to a Jewish moneylender, and is living on his great expectations of inheriting his uncle's wealth. The uncle lives in the far East, dies suddenly, and the youth finds that to get the fortune he must marry the uncle's widow. How the moneylender finances an expedition to search for the hidden fortune, how an amateur detective joined in the search, assisted by his best girl, all assist in the complications which ensue and afford many opportunities for comedy. The musical and dancing numbers are very plentiful. The scenic production is all that could be desired and the wardrobe is gorgeous.

"My Pretty Baby" is described as a super-review of beauty, youth and lolly, and was one of New York's big musical comedy successes of last season. This organization has a singing and dancing chorus that is far superior to any seen with a popular-priced musical organization. Not only is the collection a wonderful aggregation of feminine beauty, with charm of manner and the ability to dance and sing, but they wear their almost numberless changes of costumes with ease and grace seldom seen in any chorus.

Coming to the Rex Theater, Clareholm, Tuesday, Oct. 28.

On Monday morning this week the railways, which have been operating during the summer months under the "daylight saving" system, returned to standard time. The undesirable points of the "daylight saving" system have been so much in evidence that it does not now seem probable that it will survive another year.

Have you ever been buffeted by chance? Have you been crossed at every turn by fate? Have you turned bitter because of injustice? Whether the answer is yes or no—see how Stella Schump's problem was solved in "A Petal on the Current," featuring Mary MacLaren. Rex next Monday and Tuesday.

FRIDAY, OCTOBER 31, 1919

Far beyond the expectation of the Empire and the world, Canada fought and strove and paid gallantly for five years. Indeed it may be doubted if any native Canadian witnessed the notable effort of the Dominion without amazement. The true spirit of the people was not understood until they began to speak in Belgium.

It rose, month by month, to greater and still greater heights. The double climax came in the autumn of 1918 when the Canadian Corps marched from Cambrai to Mons, and when the nation subscribed \$60,000,000 for Victory Bonds.

In the war Canada found herself. The name "Canadian" is respected the world over; not only in the nations allied with the British Empire in the defence of liberty but in Germany itself.

The fighting is over. The great task of deactivating the organization built for four years of ardent effort is almost complete. The work of maintaining the army until it is fully retrained, and of fulfilling completely the national obligations to the soldiers has added much to Canadian war expenditure.

For that reason there is instant need of a new Victory Loan. The patriotic people whose ardor and energy brought Canada into the sunlight are asked to keep the Dominion there by buying bonds. The honor of the nation is involved in the success of the loan. The people who supported the soldiers constantly while they were in Flanders will not fail in one particular to continue that support until the men are re-established in profitable civilian occupations.

Considering the achievements of this proud people, there is reason for the belief that the success of the latest Victory Loan will be instant and overwhelming. But all citizens must have a part in it. It is not a task to be half done by the whole people, or wholly done by half the people. Let every citizen subscribe.

Why You Should Buy Victory Bonds

Because

You will get $5\frac{1}{2}$ per cent interest on your money.

You will get full value for your money practically at any time you may require it.

You will have an investment backed up by the entire resources of Canada.

You will have a guarantee as safe as any greenback.

You will be allowing Canada to do your banking temporarily for you.

You will be taking advantage of your last chance to subscribe to a Canadian Victory Loan.

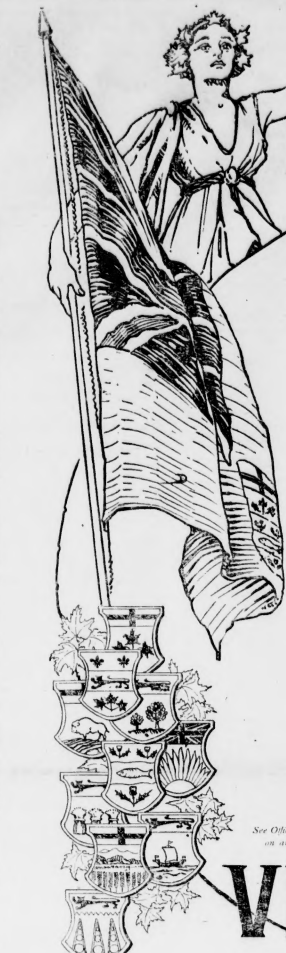

NOTICE TO CREDITORS AND CLAIMANTS

Notice is hereby given pursuant to an order made as provided for by section 15 of the Municipal Co-operative Hall Insurance Act, that all persons having claims against the Hall Insurance District established during the provisions of section 328 of The Rural Municipal Act, and carrying on the business of Mutual Hall Insurance during the years 1914 to 1918 inclusive, are required to deliver or send to the undersigned Administrator, on or before the 20th day of November 1919, a full statement of their claims duly verified and any securities held by them, and that after the said 20th day of November 1919 I will distribute the assets of the said Hall Insurance District among the parties entitled thereto having regard only to the claims of which I shall have received notice.

Canada is your country.

Canada—now—has need to borrow from you—Lend:

Lend without restraint of politics or fine distinctions of creed or party.

The leaders of the political parties endorse the Loan.

It is CANADA that asks:

And why—

To clean up the last of the War's commitments and expenses:

To establish beyond all question the capacity and credit of your country;

To care for the wounded and maimed soldier;

To finance the bonus of the returned soldier already paid;

To enable the fruits of Victory to be garnered;

To ensure the prosperity of you, her citizens.

The guns of war are silent—but they are not yet cool.

The Victory Loan 1919 is a War Loan.

Canada's book of war is gloriously written—make this, the closing chapter, a worthy one. The responsibility is yours. LEND!

Sergeant and wife returned from overseas on Wednesday of this week. He has been away for over four years and was badly wounded twice while in active service. He went through much of the worst fighting of the war. His old friends are pleased to see him home again.

L. G. de Forest has been visiting Drumheller several times lately with a view to making his home there. It is regrettable that he should find it necessary to leave Claresholm. He will be greatly missed from the land and orchestra, where he has always freely given his services.

The Agricultural College opened this week with an attendance of over 75. Many of the second year's lady students failed to turn up as expected and an investigation revealed the fact that 75 per cent had entered the matrimonial state since the college closed. The college staff are looking for an excellent year's work and expect the number of students will be greatly increased during the next few weeks.

A very quiet wedding took place in the Central Methodist church, Calgary, on Tuesday, Oct. 14th, when Miss Clara Rogers of Winnipeg, was united in marriage to Sergeant Thos. Graham of Belfast, Ireland, late of the 54th Battalion, Minnesota, Manitoba. Miss Rogers is the second youngest daughter of Mr. and Mrs. E. S. Rogers, and was formerly a resident of Claresholm. Her many friends join in wishing her a long and prosperous married life.

You saw Beautiful Mary MacLaren in that appealing picture, "Vanity Pool," you laughed while you thrilled over the amusing realism of the weaker vessel. Now she comes in a photo-drama still bigger, still more real, still more human--the best work she has ever done, "A Petal on the Current," written by Fannie Hurst, and published in the Cosmopolitan magazine a short time ago. The story of one whom circumstantial evidence all but ruined forever--till her purity of heart brought out the best in the only one who could save her. A picture that will live in your memory for years. See this at the Rex theater next Monday and Tuesday.

The 1919 Victory Loan

The people of Canada are once again asked to demonstrate their thorough-going Canadianism by subscribing to the limit of their financial ability to the Victory Loan, 1919. Throughout the war the people of Canada never once failed to meet all demands made upon them by their country, and Victoria Canada is particularly established a record for self-sacrificing patriotic effort unsurpassed in any province or country. Looking back over the history of the past five eventful years, the people of the West have nothing with which to reproach themselves; on the contrary, they have every reason for justifiable pride in their efforts and achievements.

The Great War is over so far as the fighting is concerned. It has ended in a triumphant victory for our cause, a victory made possible by the efforts of the five years now happily gone. But while the fighting is ended, victory achieved, and our soldiers home again, our country's need in Canada's war effort is yet uncompleted. The Victory Loan, 1919, is necessary to finish the work.

War is a tremendously expensive business, and modern warfare calls for an expenditure of money undreamed of in the centuries of the past. Canada pledged its honor to contribute all its powers, resources and wealth to the winning of the war. We said we would go to the limit of our last man and our last dollar in such a just and noble cause. Our men went, thousands gave their lives, other thousands are maimed and suffering from wounds, all require to be again established in civilian life. The soldiers have done their part of the war. They have brought imperishable honor and glory to Canada. As soldiers their work is ended.

But Canadians who remained at home, and who, therefore, had the easier part, have still to finish their part of the war. The Victory Loan is to win the war must be paid. Furthermore, the expense of war did not end with the actual fighting. It cost millions to bring our soldiers home and many more millions for pensions and re-establishment. It requires millions for reconstruction work. Other millions are necessary to finance the sale of the products of Canada during this reconstruction period throughout the world.

This money must be provided, and it must be provided by the Canadian people themselves. The Victory Loan is the medium through which this necessary provision is to be made.

When, during the war, our boys went "over the top," they had an objective before them, and he said to the credit of Canada's soldiers that they never once failed to reach their objective. But while the "storm" troops went forward, others had to do the less spectacular but equally important work of "mopping up" the enemy dugouts, machine-gun nests,

snipers, had to be accounted for, and a general "clean-up" carried out. If this was not done, the enemy, though, there was grave danger to the final success of the operation.

Canada as a nation has reached its objective in the winning of the war. Now the work of "mopping up" must be attended to, all bills must be paid, and adequate provision made for our soldiers, and the necessary funds provided to keep all the wheels of commerce and industry turning in this country. With Reconstruction and interest rampant throughout the world, it would be nothing short of a national calamity if business became stagnant in Canada and unemployment widespread. The result would be disastrous, and no man can foresee the end might be, a large over-subscription to the 1919 Victory Loan will avert such a disaster.

This is not a loan to the Minister of Finance. It is not a loan to the Union Government. It is a loan by the people of Canada to Canada itself. In other words, it is a loan by individual Canadians to themselves in a collective capacity. It is a loan for national purposes, and every cent of the loan will be spent in Canada and then redistributed again to the people of Canada. Canadians will receive their interest paid on the loan, and ultimately receive back the whole of the principal sum.

If Canadians fail to subscribe the amount required, Canada must borrow it elsewhere, and if Canadians refuse to lend their own country the money it needs, it stands to reason that other people will only loan to it at absolutely ruinous rates of interest. Furthermore, the payment of that interest abroad will constitute an annual drain upon Canada, impoverishing it, but adding to the wealth of other countries.

Canada must pay its war bills, and finance its own reconstruction policies. It is far better both for the financial health and the credit of Canada that Canadians themselves should provide the principal sum to cover such expenditures, and to pay to themselves the interest charges on that national indebtedness.

Every Canadian should, therefore, obtain his share of the Victory Loan to purchase the largest possible amount of Victory Bonds. Quite apart from helping Canada, and maintaining our national honor and credit before the world, it will prove a first-class investment. The security is unquestioned, namely, the entire resources of the Dominion. The interest rate is good—far better than that paid by any financial institution on savings accounts.

Help Canada to "mop up" by buying Victory Bonds, 1919, to the limit of your ability.

Saskatchewan's Butter Production
Ninety-seven cars of butter, valued at \$125,000, were exported from Saskatchewan last year. This is an increase of eighteen cars over the number sold out of the province in 1917, and an increase of \$30,000 in value. Part of the increase in value is due to higher prices that were realized in 1918 over those of the previous year.

How The Scrap Started

James stepped on Smith's favorite corn, and now there was trouble. "What Smith needed was Putnam's Corn Cure," said the French Canadian who, at the time of the incident, was a soldier. He had his body covered with no fewer than 120 illustrations of the case, including portraits of the leading persons. The work occupied nearly two years.

Underwork

"Overwork is bad," said a doctor. "But it's nothing like so bad as underwork."

"Underwork may play its thousands of ways. I don't it, but 'underwork' plays tens of thousands beyond guess. Underwork is a cause of nervousness, insomnia, fatigue waves and all that sort of imaginary and yet terrible maladies which so often end in insanity or suicide."

"In the South Sea Islands the climate is perfect, nature is beautiful, and everybody can live without work. What is the result? The result is that the South Sea Islanders are feeble-minded, practically ill."

"Andania is a smaller place with a perfect climate and a perfect soil. Everything grows all the year round in Andania except weeds. The Andanians devote themselves mainly to music and love-making. Result? A race of scrawny, undernourished illiterate."

Plowing Moderates Depth
Provided the plowing of the sun is moderate in the previous year, has been deep, as it should be, there is little advantage in deep fall plowing for wheat. About four or five inches will bury the stubble satisfactorily, and will not be so much in danger of leaving an open dry bare bottom to the seed bed as when a large amount of stubble is turned in too deep. This is even more true of early spring plowing, where a moderate depth is decidedly preferable.

Sunflowers Ideal

Forage Crop

Careful Experiments to Determine Relative Values of Various Fodders

It would seem to be settled beyond doubt by the experiments of Professor G. H. Hutton, superintendent of the agricultural and animal industry branch of the Canadian Pacific Railway, conducted at its experimental farm at Strathmore, Alberta, that sunflowers are the ideal forage crop of this province, if returns in tons per acre are any criterion of crop values.

Two and a half acres close to the buildings on the farm were sown in rows three feet apart this spring. Irrigated and properly cultivated between the rows, and the crop, which has just been cut and placed in silos, was accurately weighed, and the result showed a yield of 396 tons to the acre, green weight placed in silos. As there is moisture at the rate of 24 to 25 per cent. in sunflowers, this would give a yield of dry matter per acre of a little over six tons.

Corn raised under similar conditions at Strathmore, on about 14 tons to the acre, and the moisture in corn being 78.72 per cent., the return in dry matter was 2.45 tons per acre. The results returned in sunflowers of green forage, and the moisture percentage in this crop amounted to 62.4 per cent., the weight of dry matter was 2.35 tons per acre.

Results as given by experiments conducted at the state experimental farm in Montana last year showed a big food value in sunflowers which enable an equal value with corn ensilage as feed for dairy cattle, and as being far superior to either corn or oats for sheep, but during this coming winter Professor Hutton will conduct careful experiments at Strathmore to determine the relative values of these various fodders when ensiled.

The results will be watched with the greatest interest by farmers, ranchmen, and the public generally, to whom the question of forage for stock is a matter of supreme importance. It involves, as it does, the capability of the country to sustain a much larger proportion of livestock than is at present possible under present conditions.

A Human Picture Gallery

Perhaps the most extraordinary talking idea ever carried out was that of the French comedian who, at the time of the incident, was a soldier. He had his body covered with no fewer than 120 illustrations of the case, including portraits of the leading persons. The work occupied nearly two years.

The Curious Origin Of One Word

A fascinating study is that which searches for the origin of words. Much of the history of the world is locked up in the words we use every day, utterly unconscious of their derivation.

When the Arabs came into Europe and learned from the nations, they encountered the wisdom of all the ages then past, they became deeply interested in the attempts that the ancients had made to turn their metals into gold.

That it had been declared to be a secret and mysterious process made it all the more fascinating to them. And so they became alchemists and called themselves Hermetic philosophers, because tradition declared Hermetus Thaumaturgus about two thousand years before Christ had discovered how to convert the baser metals into gold.

To melt the mouth of a glass tube so as to "close it" was called securing it with "Hermes' lip seal." We know little or nothing of Hermetus, or when he lived, or whether he ever lived at all, but it is curious that even to this day when a bottle or jar is closed so that it is airtight we call it hermetically sealed, after this same Hermetus.

Some men would rather owe you a bill for ever than pay you for the trouble of collecting it.

A Nervous Wreck

BY DR. R. B. GRANTLEY

How many business men feel fagged out, nervous, with a "soggy brain" — weary out completely before the day and its tremendous tasks are half over? Try the right way! Clean the body first. That will lay out completely your head and your circulation. Your doctor will tell you that anything from a headache or a common cold to grippe or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and sold by most druggists as Dr. Pierce's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Anuric" (anti-uric-acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Anuric" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.

Increased Bank Clearings
The continued and increasing progress of Saskatchewan is reflected in the bank clearings at Saskatoon during the past month, when an increase of more than two and a half million dollars over the clearing house figures for September of last year, or practically forty per cent., was announced. This financial increase is general throughout the province and is indicative of the progress and success of its population.

With so sterling a remedy as this it is hard to believe that it should offer an hour from worms.

Banks' Gold Supply
Some Statistics as to Location of Supplies of Gold.

By the latest reports received the National Bank of Germany holds \$300,000,000 less gold than it held a year ago; the Bank of Italy, \$300,000,000 less; the Bank of the Netherlands, \$27,000,000 less, and the Bank of Austria's total of \$50,000,000 is practically unchanged. On the other hand, the Bank of England now holds \$102,000,000 more gold than at this date in 1915; the Bank of Spain, \$41,000,000 more; the Bank of Switzerland, \$17,000,000 more; the Banks of Belgium, \$15,000,000 more; the Bank of Greece (including balances abroad), \$150,000,000 more, and the Bank of Japan \$25,000,000 more.

PRE-WAR DAYS ARE QUICKLY RESUMED

Canadians Are Apt to Forget That the Struggle is Not Finished Yet.

It's funny how quickly we slip back into the old ways of life, even though jarred out of them by years of war and wrenched by sad partings.

Isn't it true that in most Canadian homes life goes on today pretty much as it did five blank years ago, the stalwart sons come to the breakfast table with the same noisy greetings, though there is, perhaps, a shade deeper ring to their voices? Returned from war, the head of the family sits in his old accustomed place at story time, perhaps bringing a new kind of price and knighthood for the youngsters.

With the men home life goes on pretty much as before. The harsh old realities of war are slipping into the misty background. We can never forget the price in flesh and blood; we could easily forget the price in treasure.

When we hear of plans for the Victory Loan, 1919, brought back with a jerk to the hard fact that the cost of Canada's Victory has not been fully paid, and that the future lays burdens upon us also.

Buying Victory Bonds is Common Sense Act

Investing of profits in Victory Bonds has a particular appeal to western farmers. The action is a sort of merry-go-round in which the farmer makes money at each turn. Not only does he gain a good rate of interest, but he secures himself a market for his products at profitable prices.

The big business of Canada is built on foreign trade. This foreign trade has to be financed. Victory Loan proceeds provide the credits, the farmer is provided with markets.

The grain grower of the west is receiving \$2.15 a bushel for his wheat, and proportionately good prices for his other products. As a matter of good business, the western farmer is urged to invest every cent of his earnings that he can spare in these bonds.

\$2,423,000,000

The present estimated value of the railways of Canada is two billion dollars. That does not include the street railways which are valued at one hundred and sixty millions. Canals are worth one hundred and twenty-three millions; shipping, thirty-five millions; telegraphs, ten millions and telephones ninety-five millions. These utilities are a portion of the security for the Victory Loan 1919. The estimates are made by Dr. P. H. Coates, Director of the Dominion Bureau of Statistics at Ottawa. He places the total of the National wealth and income of Canada at \$19,042,788,125.

THE MINISTER OF FINANCE OF THE DOMINION OF CANADA offers for Public Subscription the

Victory Loan 1919

\$300,000,000. 5 1/2% Gold Bonds

Bearing interest from November 1st, 1919, and offered in two maturities, the choice of which is optional with the subscriber as follows:

5 year Bonds due November 1st, 1924
15 year Bonds due November 1st, 1934

Principal payable without charge at the Office of the Minister of Finance and Receiver General at Ottawa, or at the Office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary and Victoria.

Bonds may be registered as to principal and interest, as hereinafter provided, at any of the above-mentioned offices.

Interest payable, without charge, half-yearly, May 1st and November 1st, at any branch in Canada of any Chartered Bank.

Principal and Interest payable in Gold. Denominations: \$50, \$100, \$500, and \$1,000

Issue Price: 100 and Accrued Interest, Income Return 5 1/2% per Annum

The proceeds of the Loan will be used to pay indebtedness incurred, and to meet expenditures to be made in connection with demobilization including the authorized war service gratuity to our soldiers, and settlement loans, and other purposes connected with their re-establishment into civil life, for capital outlay upon shipbuilding and other national undertakings forming part of Canada's industrial reconstruction programme, and for the establishment of any necessary credits for the purchase of grain, foodstuffs, timber and other products, and will be spent wholly in Canada.

Payment to be made as follows:

10% on application: 20% February 15th, 1920: 20% January 15th, 1930: 40% March 15th, 1930.

The last payment of 40% covers 20% balance of principal and 12 1/2% represented accrued interest at 5 1/2% from November 1st to due dates of the respective instalments.

A full half-year's interest will be paid on May 1st, 1920, making the cost of the bonds 100 and interest.

Subscriptions may be paid in full at the time of application, or 100 without interest, or on any instalment due date thereafter, together with accrued interest at the rate of 5 1/2% per annum.

This Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge upon the Consolidated Revenue Fund.

The amount of this issue is \$300,000,000 exclusive of the amount (if any) paid for by the surrender of bonds of previous issues. The Minister of Finance, however, reserves the right to allot the whole or any part of the amount subscribed in excess of \$300,000,000.

Payments

All cheques, drafts, etc., covering instalments are to be made payable to the Credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture, and passed by a deposit of 10% of the amount subscribed. Official Assignees will forward subscriptions or any part in Canada of any Chartered Bank will accept subscriptions and issue receipts.

Subscriptions may be paid in full at time of application, or on any instalment due date thereafter, together with accrued interest to time of making payment in full. Under this provision, payment of subscriptions may be made as follows:

If paid in full on or before November 15th, 1919, per without interest or 100%.

If remaining instalments paid on Dec. 15th, 1919, balance of 90% and interest (\$70.32 per \$100).

If remaining instalments paid on Jan. 15th, 1920, balance of 70% and interest (\$71.84 per \$100).

If remaining instalments paid on Feb. 15th, 1920, balance of 50% and interest (\$81.08 per \$100).

If remaining instalments paid on Mar. 15th, 1920, balance of 30% and interest (\$83.21 per \$100).

Payment of instalments or payment in full after November 15th, 1919, can be made only on an instalment due date.

Denomination and Registration

Bearer bonds, with coupons, will be issued in denominations of \$50, \$100, \$500, and \$1,000, and may be registered as to principal. The first coupon attached to bonds and holders of bonds on May 1st, 1920.

Fully registered bonds, the interest on which is paid direct to the owner by Government cheque, will be issued in denominations of \$50, \$100, \$500, \$1,000, \$2,500, \$5,000, \$10,000, \$20,000, \$50,000, \$100,000, or any multiple of \$100,000.

Payment of Interest

A full half-year's interest at the rate of 5 1/2% per annum will be paid May 1st, 1920.

Form of Bond and Delivery

Subscribers must indicate on their applications the form of bond and the denominations required, and the securities so indicated will be delivered by the bank upon payment of subscriptions in full.

Bearer bonds of this issue will be available for delivery at the time of application to subscribers desirous of making payment in full. Bonds registered as to principal only, or fully registered as to principal and interest, will be delivered to subscribers making payment in full, as soon as the required registration can be made.

Payment of all instalments must be made at the bank originally named by the subscriber.

Non-negotiable receipts will be furnished to all subscribers who desire to pay by instalments. These receipts will be exchangeable at subscriber's bank for bonds on any instalment date when subscription is paid in full. All receipts must be exchanged before 1st June, 1920.

Form of Bonds Interchangeable

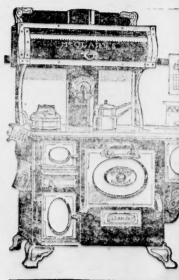

Subject to the payment of 25 cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds without coupons, at any time, on application to the Minister of Finance or any Assistant Receiver General.

Forms of application may be obtained from any Official Conveyancer, from any Victory Loan Committee, or member thereof, or from any branch in Canada of any Chartered Bank.

Subscription Lists will close on or before November 15th, 1919
